

Phase 3: Test with Original Hint Word

Now we'd like to test your memory for the response words in the same way that we did at the very beginning of the study. In this test, you will be given each original *Hint* word and asked to type the associated *Response* word.

A few things to keep in mind:

- Type the *Response* word in the space as quickly as possible and then click Continue.
- If you do not know the Response word, just click Continue to move onto the next trial.
- **Please make sure to type in the word correctly as typing mistakes are also considered errors.**
